

CELADON

CHANGE YOUR PROBE CARDS IN UNDER TEN SECONDS

CELADON AIR-READY INDEXER™ Automatic Production Probe Card Changer

The Celadon Indexer™ is a VersaCore™ compatible, automatic probe card changer. Holding up to 5 different probe cards or diagnostic heads, operator free testing with probe card changes is now possible. With full ethernet compatibility, TCP/IP programming, and internal probe card placement checks, the Celadon Air-Ready Indexer™ is the ultimate production parametric accessory to minimize cost of test. Optimized for the Keysight 407# and 408# series test heads. All existing Celadon VersaCores™ are compatible with the Celadon Indexer™ system.
