TILE-ON-CARD™(TOC)

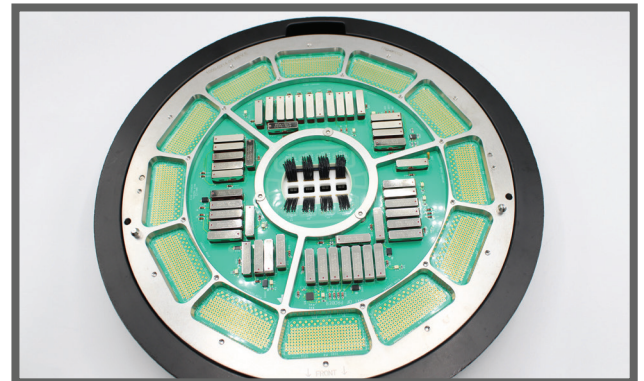

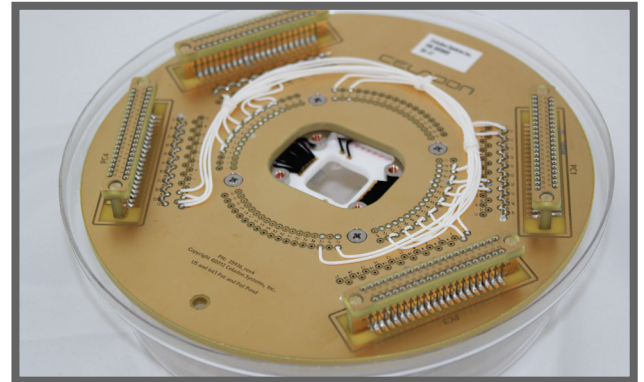

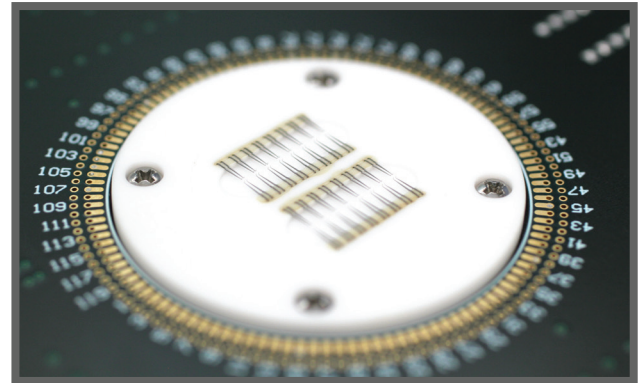

Probe card featuring a ceramic probe head mounted on a customizable PCB

PRODUCT OVERVIEW

- Mechanical Interface: Customizable
- Temperature Options: sub 2K – 200C
- Max Channel Count: 2,000 [layout dependent]
- Voltage Rating: DC – 200V Standard
- Electrical Termination: Test head or cable-out

KEY DIFFERENTIATORS

- Exceptional probe card lifetime designed for durability and repeatability, resulting in lower total cost of ownership.
- Proven stability across extreme temperatures and challenging test conditions
- Ultra-thin for MRAM applications and optimized magnetic fields
- Strategic partnerships with industry leaders for seamless integration in custom applications
